

Blood Ketone & Glucose Meter

The Keto-Mojo Meter is an FDA-approved blood testing meter designed for patients who test their blood ketones and glucose for a variety of personal and health-based reasons.

Keto-Mojo Meter Features

Support

In addition to our US-based, full-time support team, we offer many online resources, including **Help Docs**, **FAQ** and **videos** to answer any questions you or your patients may have.

Connectivity

Patients utilize Bluetooth with the Keto-Mojo App to **track testing results**, which can be shared if they choose

Accuracy

Dietary and lifestyle decisions are made based on blood testing, therefore **accurate results are critical**

Reliability

Ongoing, **consistent testing** results are stored in the meter to measure results over time, leading to **reliability in testing**

Rated #1 Ketone Meter by:  Diet Doctor

ACCOUNTABILITY, ADHERENCE & CONTROL

- Accountability is a key factor in the ketogenic diet - review test results in real-time
- Commitment to the ketogenic diet includes adherence to blood glucose and testing on a regular basis
- Use the Keto-Mojo meter and App to gain control over your patient's overall health management plan while on the ketogenic diet

PARTNERSHIP

Scan the code to the right and visit Keto-Mojo's Professional Portal for a variety of partnering opportunities, which includes Wholesale, Affiliate, and Academia options.

LEARN MORE & SIGN UP

Keto-Mojo is committed to working with Health Professionals by providing premier education and resources for practitioners and patients alike. We look forward to assisting you in the critical work you do.

Lifetime Warranty

The only FDA-approved meter to offer a lifetime warranty. If it is determined that the meter itself is faulty, Keto-Mojo will gladly replace it

1ul

Sample Size

Tiny sample size of 1.0ul = less intrusive sample required
